Niagara County Community College- School of Fine Arts

Art History
Black and white photography
Independent photography
Design

Volunteer Work:

September 1999- February 2000

Lewis Street Center- Volunteer Teacher

I worked with Rochester city youths teaching them color and black and white photography. We discussed and developed projects that the children really wanted to do. I taught them how to use cameras, develop their own film, make prints and much more. There was much gained for the children as well as myself in this experience.
